REPUBLICAY PARTY PLEDGES BROKEN.

Out a Few Unredeemed Promises.

TRUSTS ALLOWED TO THRIVE. STOCK AT PAR FOR HOLDERS.

Danger Now Threatening the Welfare of People-Sherman Law Condemned.

Washington, June 18.-The near approach of the end of the present session of Conspeech by Mr. Richardson of Tennessee, the leader of the minority. Taking adwantage of the latitude allowed during general debute on the deficiency appropriation bill, he delivered a set speech of an hour

had absolute control of all branches of the Government for six years. He proposed to examine into its trusteeship.

Party Pledges Broken. The dominant party, he said, had come into power with certain express promises and pledges and he argued that its record was spotted all over with the leprosy of concessions to Cuba, solemnty given, which had been defeated, he stated, by discord and rebellion in the Republican ranks.

It was then went back to 1856, charging that

He then went back to isso, charging that the Republicans had betrayed their pledges on the money question, and later in 1900, when they appealed for a further lease of power in order to cure the alleged defect in the legislation for the perpetuation of the gold standard. Not one line of remedial legislation had been placed upon the statute books since 1900.

Trusts the Gravest Danger.

Mr. Richardson announced that in his opinion the gravest danger now threatening the welfare of the people and the country was the growth of the power of the trusts.

There was, he declared, an irrepressible cry throughout the country for Government centrol of the great trusts. Congress along could heed that cry. If it was not heeded, these remorseless trusts could proceed in their greed to defy the power of the Government itself. Mr. Richardson charged that the growth of these great trusts was due to the existence of the highest protective tariff ever placed upon the statute books. These was sworn testimony Trusts the Gravest Danger. statute books. There was sworn testimony of the beneficiaries of the tariff that it was the "mother of trusts."

The Sherman antitrort law, to which the dominant party pointed with pride, was a dead letter. Under it trusts flourished like mushrooms in a dark cellar. Tet Congress did nothing. If the people did not turn out of power the friends of the trusts, he said, they would deserve the fate the trusts had in store for them. The Republicans, he said, seemed to be paralyzed with fear. They cried out and asked whether the President and Attorney General were not now undeavoring to restrain the trusts. That was true, he said, but action against a single trust could accomplish nothing. Congress must set. Presidential strenuosity would not compensate for congressional Sherman Law Dead.

Condemned Administration. Shallenberger (Dem.) of Nebraska also nade a political speech condemning the admade a political speech condemning the administration for requesting Miss Taylor, a clerk in the War Department, for criticising its Philippine policy and for justifying General Wood's expenditures for the promotion of reciprocity Psilastion.

Mr. Campon, chairman of the Appropriation Committee, in a brief repty to both speech, said he was ready to go to the country on the record of the Republican party. He caused much merriment on his side of the House by describing the Republican party as publing the wagon, while the Democrats stood off and found fault.

Mr. Bartlett (Dem.) of Georgia offered an amendment to the deficiency bill to reimburse the Cubon revenues for the salary allowed by Secretary Root to Governor Genconnections with their rails or upon empty.

Congressman Richardson Points Illinois Central to Increase Its Capital Stock to More Than \$95,000,000.

Believes Combines Are the Gravest | Company Plants Millions of Catalpa Trees-Metcalfe Elected President of Mexican International.

REPUBLIC SPECIAL.
New York, June 18.—Announcement was made to-day that the Illinois Central proposes to increase its capital by an additionshares, or to the extent of 20 per cent of the present capitalization. A special meeting of the company's shareholders will be held In Chicago August 29 next to consider the Mr. Richardson said the Republican party | proposition, which was recommended by the directors at a meeting to-day.

If the step is taken the present capital of the company, \$79,290,000, will be increased to more than \$95,000,000. This will be the third time the Illinois Central has applied to its stockholders for additional capital in the last two years. In November, 1900, an increase of \$6,000,000, bringing the total up to pledges unredeemed. First he directed at-tention to the promises of reasonable trade concessions to Cuba, solemnly given, which

It was evident to-day that some proposi-tion which Wall street considered important to the Illinois Central was before its directors, for the movement of its stock was one of the features of the market. On sales aggregating nearly 70,000 shares, the stock advanced from 153% to 180%, a

gain of seven points. Before the close realzation sales forced the price back to 156% The new stock will be offered to the stock-holders at par. The rights, taking the stock at 188, are worth 25s.
Stuyvesant Fish, president of the Illinois Central Railroad, issued a statement at the close of the directors' meeting, in which he said:

To Bouble-Track Entire System.

"The funds thus to be raised will be used in providing additional second track, equipment, yards and other facilities, which are required to meet the growing traffic. Much of this work has already been contracted for."

of this work has already been contracted for."

Mr. Fish further said that not only has the number of tons of freight moved, and the number of passengers moved one mile, increased steadily in each of the last iffteen years, but this increase has also been pensistent in every year, with respect to the number of miles of railroad operated, notwithstanding the taking over, from time to time, of lines on which there then was a traffic very much lighter than that of the average of the old raad.

The necessity for a second track was referred to in the report for 1900, and again in that for 1901. During the current fiscal year there have been added 117 miles of second track and a large amount of additional work has been done in preparation for further extensions thereof, the company having undertaken what amounts practically to double-tracking the whole line from Chicago to New Orleans, over whis, as stated in last year's report, the traine is now in excess of that which can be economically handled on a single track.

"The company has made large additions to its equipment this year," said Mr. Fish, "and has entered into heavy contracts for further additions, and we feel that we are bound alike to the stockholders and to the patrons of the railroad as speedily as may be to furnish all the facilities which may be called for."

talpa Trees at Duquoin, Ill. Eighty acres of catalpa trees will be planted by the Illinois Central on a tract of land adjoining Duquoin, Ill., on the

timber.

Owing to the alarming scarceness of the timber, the Illinois Central Railroad Company will at once set out 30,000 trees on this tract. And, as has been reported in The Republic, the company has plans to plant a number of such tracts. Recently tracts containing more than 2,000,000 trees were set out in Louisiana. containing more than 2,000,000 trees were set out in Louisiana.

Arrangements for the planting of the trees at Duquoin have just been made through Mayor W. B. Hall, land agent for the Illinois Central in Southern Illinois. The company's land agents will som complete arrangements to set the right-of-way from Chicago to New Orleans with these trees. They will be clustered at stations, set around cattle pens, and will be used to hedge the company's yards at all points. In addition to producing the timber the trees along the right-of-way will be set with the purpose to protect embankments, and add beauty to the line.

FAST RUN ON THE VANDALIA.

Second No. 5 Wirs in a Race With Time, Indiana to East St. Louis. Section No. 5 of the Vandalia last Monday made a record run between Terre Haute and East St. Louis, departing from Terre Haute one hour and thirty-one min-Terre Haute one hour and thirty-one minutes late and arriving in East St. Louis within six minutes of schedule time.

The train was handled by Engineer Capring, with engine No. 16, and consisted of five cars four of them postal and one a combination. Being the second section, it was due to arrive in East St. Louis ten minutes after the first No. 5, but it only arrived sixteen minutes behind the first section.

COTTON BELT WINS THE SUIT. Beats Southern Pacific in Texas \$1,-000,000 Terminal Fight. REPUBLIC SPECIAL

Dullas, Tex., June 18.—In the United States District Court to-day Judge Muck decided an important railroad case, siving judgment in favor of the Cotton Belt and against the Southern Pacific Company. Several years ago President Connor sold the Dalhas Terminal Railway property and franchises to Collis P. Huntington, for the Southern Pacific, the contract providing that the road should be built to Fort Worth (thirty-two miles), within one year. No work on the Fort Worth extension was done, and about two years ago President Connor sold the property to the Cotton Belt, which has spent several hundred thousand dollars on it, and is just completing its Dallas-Fort Worth connection. The property is conceded to be the most valuable terminal of its kind in Texas, and is worth in excess of \$1,000,000.

HEMPLEMANN SUIT DISMISSED. Plaintiff Criticised by the Court-

Public Has an Interest. Circuit Judge Talty, in dismissing the divorce suit of May R. Hemplemann against Edward Hemplemann yesterday, said it would seem that the parties had scarcely

lived together long enough to become acquainted with or understand each other; quainted with or understand each other's dispositions or temperaments. They were married in November, 1909, and separated a year later. The Judge says it appeared to him a case of a young husband being unable to keep his wife in the manner and style she expected he would, and that shortly after entering into the sclemn contract of marriage lack of means drove away the love which she had for her husband, or, perhaps, thought she had for him.

The public, the Judge stated, has an interest in divorce suits, which it is the duty of the Court to protect. of the Court to protect.
